ABOUT

MISSION

Royal Minds Academy is a *Title I* private boarding school serving underprivileged, fostered and at-risk youths in the African American community in America, K – 12 with a daycare.

VISION

Royal Minds Academy is a unique educational setting whose faculty, staff, and facilities nurture the optimal growth of African American students with a range of talents, abilities, and interests. Our community-oriented environment is supportive, promoting and valuing intellectual challenges and emphasizing the arts, athletics, and cultural competence.

CORE VALUES

Royal Minds Academy believes that:

- An education that sparks curiosity, provides intellectual challenge, offers adequate support, and hones analytical thinking not only fosters independence but also establishes the foundation for a lifetime of learning and the pursuit of excellence.
- Creativity must be encouraged and nurtured in all aspects of school life.
- Working with peers with a variety of learning styles, as well as with a range of academic, athletic, and artistic strengths and interests, enriches the educational experience for all students.
- A strong sense of self-esteem, self-discipline, and self-confidence allows students to persevere and, thus, to grow through challenges into optimistic, active, and “useful” and “leading” citizens of the world.
- Through athletics, community service, group activities, and collaboration across disciplines, students develop valuable social habits and interpersonal skills that will help them become successful, fair-minded, and leading members of society.
- Learning to make informed choices and to advocate for oneself is fundamental to achieving a healthy, balanced lifestyle.
- Seeking to understand others, as well as respecting and valuing differences, is essential for a judicious, meaningful, and fulfilling life.

TM

DEFINED

<p>UNDERPRIVILEGED</p>	<p>having less money, education, etc., than the other people in a society : having fewer advantages, privileges, and opportunities than most people : poor or disadvantaged. Many times, this word is used as a synonym for poor. People often worry about underprivileged children who are living in poverty and may not have access to healthy food or good medical care. Underprivileged children often go to the worst schools too, which is another disadvantage.</p>
<p>FOSTERED</p>	<p>a child raised by someone who is not its natural or adoptive parent; a needy child, as one living in an impoverished country, supported or aided by contribution to a specific charity; a child without parental support and protection, placed with a person or family to be cared for, usually by local welfare services or by court order. The foster parent(s) do not have custody, nor is there an adoption, but they are expected to treat the foster child as they would their own regarding food, housing, clothing and education. Most foster parents are paid by the local government or a state agency.</p>
<p>AT-RISK</p>	<p>a child who is less likely to transition successfully into adulthood. Success can include academic success and job readiness, as well as the ability to be financially independent. It also can refer to the ability to become a positive member of society by avoiding a life of crime.</p>
